

Installing INK Cartridges on EPSON 4880 Printer

When you first install our cartridges, you'll see the message: "NON-GENUINE" and a down arrow.

Note the blinking crossed symbols on the left indicating those four cartridges are not ready yet.

Press the arrow down 5 times to see the complete message:

NON-GENUINE
CARTRIDGE! MAY
NOT PERFORM AT
OPTIMUM.
CONTINUE?

You'll then see a confirmation "YES NO". Press the left arrow to confirm, a new message will show:

As you did before, press the down arrow 5 times until the whole message scrolls:

DAMAGE FROM
CARTRIDGE IS

NOT WARRANTED.
DO YOU ACCEPT
THIS?

And then a confirmation "ACPT. DECLINE", just press the left arrow to select ACPT. (ACCEPT).

Once you do this, "PLEASE WAIT" will show on the screen, after a few seconds the "READY" message will show and all the cartridge symbols will be whole.

At this point you're ready to use your printer as usual.

Thanks for using Our Inks.
