

POK1210

Kao Collins Oil-based Inks for Piezo Technology

Black Fast Absorbing Pigment

POK1210 is an oil-based pigmented ink that prints permanent, quality images with high o.d. on porous materials. This ink has good jetting reliability and absorbs quickly into porous substrates.

Features

- Fluid base: Oil
- Colorant: Pigment
- Flash point: $> 100^{\circ}C$
- Shipping info: Non-hazardous
- Shelf-life: 1 year

Printheads¹

- Xaar, Toshiba-Tec, Konica-Minolta
- Jetting Temperature: $30 - 40^{\circ}C$

Storage & Packaging

- Storage Conditions: $15^{\circ}C - 35^{\circ}C$
- Most popular packaging:
 - 20-L cube
 - 10-L cube
 - 4-L cube
 - Other packaging also available
- Related item: POW1100 Oil-based flush

Notes:

¹Using the proper degassing unit is highly recommended. Please contact technical support for any further information. Check with technical support for other printhead model compatibility.
